I know right! He left pretty quickly. No big celebration or anything. So much knowledge and experience gone. So it goes.

Jose

Nooooo. I didn't know that John retired. That is a big loss!

Thanks, Quinn. FYI, John Hebert has retired. I'll see if there's anyone else from AD that should be included.

Subject: Treated Seed Mitigation Template for PIDs

Good Afternoon All,

Attached is the label mitigation template for treated seeds as we are trying to standardize the language across seed treatment products. We have also developed template language for the seed bag tag which is included in the attachment above. We are hoping to be of service in developing similar templates for the treated articles in AD including looking at the labels that are already used and examining the underlying assumptions to see what new may be needed. I will begin looking at times to set up a meeting to discuss this but in the meantime if you have any questions please let me know. Please forward to anybody else that may be interested and I can include them in the meeting as well.

Best,
Quinn
